**PayHalal OpenCart Extension**
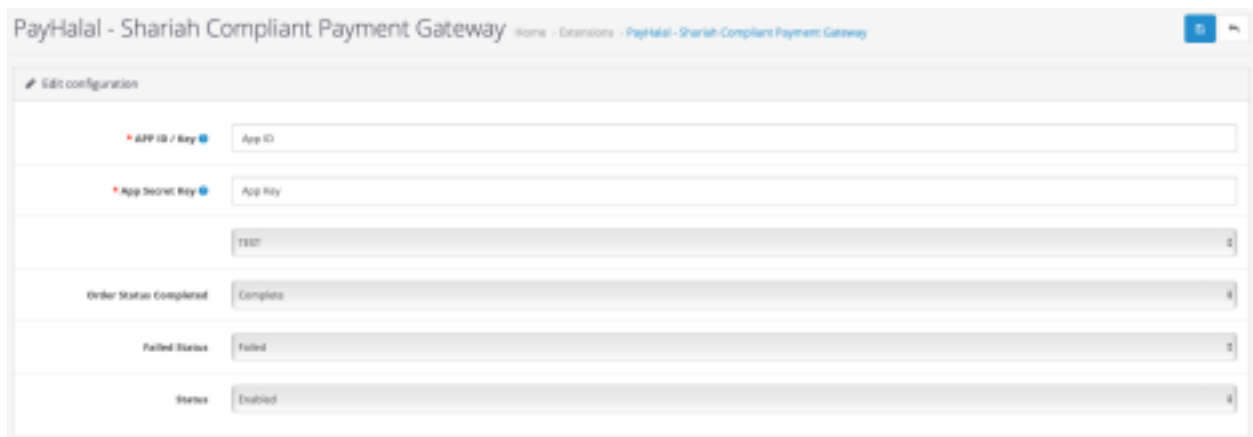

1.) Click on Extension, click on upload and select the file "opencart-3-payhalal.ocmod.zip".

2.) After successful installation, go to extensions, select the Extension Type "Payments" and find the PayHalal Extension.

3.) Click now on Install (Plus Icon) and go to the Settings

3.) Extension Settings

The App ID Key and App Secret you can find in your PayHalal Merchant Backend under the Section "Developer Integration".
Please login here:

https://payhalal.my/login

Make sure the URL after Purchase is:
https://your-website/index.php?route=extension/payment/payhalal/status

the URL for Notification:
https://your-website/index.php?route=extension/payment/payhalal/callback

the Return URL:
https://your-website/index.php?route=extension/payment/payhalal/status

the CancelURL:
https://your-website/index.php?route=extension/payment/payhalal/status

To test the integration, select the "Test Mode". Once the Integration is completed, you can switch to the "Live Mode".

4.) Test the Integration

To test the integration, place any order and you should see the PayHalal Payment Option and Button like on the screenshots below:

After click on "Proceed to Payment", you see the Payment Screen with all available Payment options.
